MEARN STACK DEVELOPER INTERN

[LinkedIn](#) • +91 7560855207 • fathimaruba2@gmail.com • [Github](#)

Energetic, highly motivated BCA student with a strong passion for IT, showcasing proficiency in programming languages such as Javascript, Angular, Node.js and React.js. A quick learner with excellent communication skills, seeking opportunities to contribute to innovative IT projects and further enhance skills in software development.

Projects

NETFLIX-CLONE

Developed a Netflix clone using HTML, CSS, Bootstrap, and Media Queries. The project involved designing a responsive user interface that closely mimicked Netflix's layout. Leveraged Bootstrap for a mobile-first design, ensuring seamless performance across various devices. Media Queries were utilized to adapt the layout and content presentation for different screen sizes, enhancing user experience. This project showcased my ability to create visually appealing and responsive web applications.

EVENTIFY

Developed Eventify, a responsive event management website, using HTML, CSS, and Media Queries. Utilized CSS for styling and Media Queries to ensure the site was fully responsive, providing an optimal user experience on both desktop and mobile devices. This project demonstrated my skills in front-end web development and responsive design, as well as my ability to create visually appealing web applications.

RENTALHUB

Developed RentalHub, a comprehensive rental platform consisting of a mobile app for users and delivery personnel, and a website for rental owners and administrators. The RentalHub app allows users to rent a wide range of items, from dresses to homes, and includes functionalities for payments and managing deliveries. The website, built using Python, Django, HTML, CSS, and Bootstrap, provides rental owners and administrators with tools to manage listings and oversee operations. The mobile app was developed using Android and Java, ensuring a seamless and user-friendly experience.

Skills

Javascript • Html • Css • Python • C Programming • Bootstrap • Tailwind • Java • Excellent Communication Skills • Team Player
• Multitasking • Quick-Learner • Ability to Work Under Pressure • Decision Making Skills • Problem Solving Skills

Education

BACHELOR OF COMPUTER APPLICATION (BCA)

2021-2024

University Of Calicut

FIRST CLASS WITH DISTINCTION (8.2%)

Activities

Certifications: Earned certification from CISCO, demonstrating proficiency in Python.

Team Lead: Led a team of four in the successful completion of project - RENTALHUB.

Student Organizations: Was an active member of SIPC (Palliative Care), contributing to the needy.
